Uplink Time Difference of Arrival (U-TDOA) positioning mechanism

The U-TDOA positioning method is based on network measurements of the Time Of Arrival (TOA) of a known signal sent from the mobile and received at three or more LMUs. The known signal is the normal bursts generated by a mobile while in the dedicated mode; either on the SDCCH or TCH. The method requires LMUs in the geographic vicinity of the mobile to be positioned to accurately measure the TOA of the bursts. Since the geographical coordinates of the measurement units are known, the mobile position can be calculated via hyperbolic trilateration. This method will work with existing mobiles without any modification.

SDCCH
COVERED

As part of their service of operation, the LSTs/LSTs may request the LSTs to be positioned to accurately measure the TOA of the bursts. These LSTs are to be positioned with the LSTs to be positioned to accurately measure the TOA of the bursts. These LSTs are to be positioned with the LSTs to be positioned to accurately measure the TOA of the bursts.

Re: STC RFP ID: GSNBT VASMAIN Location-Based Services and U.S. 5,377,144

Mr. Petric:

As you are aware, we represent TruePosition, Inc. in intellectual property matters. It has come to TruePosition's attention that Andrew has responded to STC RFP ID: GSNBT VASMAIN Location-Based Services (LBS) (the "RFP").

Certain requirements set forth in the RFP contemplate products that may be within the scope of the claims of TruePosition's U.S. Patent No. 5,377,144 (the "144 Patent"). In

TruePosition has not licensed the 144 Patent to Andrew, or anyone else. Further, TruePosition does not intend to grant a license to Andrew or any third-party vendor with respect to fulfillment of the RFP.

“ I have some real concerns about how you are using some of those admissions . . . It sounded to me like some of them could only be used for a validity argument or to argue the claim construction that I already rejected. So I just wanted to let you know that I am aware of the mischief that could come from those admissions, and I will publicly correct you if you step over the line that I’ve drawn in this case.”
